### SUMMARY

My goal is to excel as a Flutter developer by leveraging my expertise in Dart programming, intuitive UI design, and REST API integration. I am committed to delivering high-quality mobile applications. With strong communication skills, I aim to drive team success, foster personal growth, and contribute to economic advancement.

### EXPERIENCE

#### **OmegaSoft BD**

##### **Flutter Developer Intern**

 <https://omegasoftbd.com/>

**10 May, 2025 - 10 September, 2025**

Remote

### GOOLE PLAY STORE PUBLISED APP

#### **Medical Help Rajbari**

[Play Store Link](#)

It's provides emergency calling, doctor appointment support, nursing services, physiotherapy services, ambulance services and medical product information with one-tap call and WhatsApp support.

- Provides 24/7 emergency calling and quick medical assistance
- Supports doctor appointment booking and consultation services
- Offers nursing, physiotherapy, and ambulance services
- Enables medical product information with one-tap call & WhatsApp support

### PROJECTS

#### **MeetDoc - Smart Doctor Appointment & Telemedicine App**

- Implemented doctor search, appointment booking, and video calling.
- Used Firebase for backend services including authentication, real-time database, and data storage.
- Integrated digital prescriptions, patient records, and doctor dashboards for a complete telemedicine experience.

#### **SocialLive - Social Media App (Team of 4)      Gthub : [Link](#)**

- Collaborated using Jira to manage tasks and maintain an Agile workflow, ensuring efficient team coordination and timely delivery.
- Built an Instagram-style app using Flutter with features like posts, likes, comments, and media sharing.
- Used Supabase for authentication, real-time database, and backend services.

## **Weatherly** – Flutter Weather App    **Github : [Link](#)**

- Using OpenWeather API displayed real-time weather data: temperature, humidity, wind speed, and forecast based on user location

## **AniFlex** – OTT-style Anime Streaming App    **Github : [Link](#)**

- Built a full-featured anime streaming app using Flutter, with an intuitive and responsive UI
- Integrated Firebase Authentication for secure user login and management
- Embedded YouTube videos using pub.dev packages for smooth content playback

## **EDUCATION**

---

### **Bachelor of Science in Computer Science and Engineering**

January 2022- 2025

Daffodil International University

### **Higher Secondary Certificate**

Passing Year: 2020

Rajbari Govt. Collage

group : Science

## **SKILL**

---

### **Programming & Frameworks**

- Languages: Dart, C,C++,Python,java
- Frameworks:  
Flutter,Tkinter,JavaSwing

### **Development & Database**

- State Management: GetX
- Databases: SQLite, Firebase, MySQL,Hive, Supabase
- Web Technologies: HTML/CSS,Tailwind-CSS

## **CERTIFICATIONS**

---

### **App Development With Flutter**

February-September 2025

- Mobile Application Development (6-Month Online Course, OSTAD).
- Learned Dart programming, responsive UI design, Firebase, and REST API integration.
- Built projects including an E-Commerce App, Task Manager App, and CRUD App.
