Dhaka Bangladesh Nafiur Rahman Sabbir nafiurrahmansabbir

Professional Summary

Computer Science graduate with practical experience in software and mobile application development. Experienced in developing user-focused software solutions, integrating backend services, and deploying applications to production environments. Published multiple applications on the Google Play Store and co-authored an IEEE conference paper on an IoT-based smart parking system. Eager to contribute to software development, IT, and technology-driven roles while continuously expanding technical expertise.

Experience

Apr 2025 – Dec 2025
Agargaon, Dhaka, Bangladesh

Omegasoft BD
Flutter Developer (Intern)
- Contributed to the development of an ERP-based SalesPilot mobile application using Flutter.
- Integrated REST APIs and SQLite for data management and local storage.
- Followed clean architecture practices to support maintainable and scalable application development.

Education

Jan 2022 – Jan 2026
Dhaka

B.Sc. in Computer Science and Engineering
Daffodil International University
CGPA - 3.32 out of 4 || Passing year 2026

Dhaka Board

Higher Secondary Certificate (Group: Science)
Rajbari Govt. College
GPA - 4.58 out of 5 || Passing year 2020

Dhaka Board

Secondary School Certificate (Group: Science)
Rajbari Govt. High School
GPA - 4.17 out of 5 || Passing year 2018

Skills

Programming Languages
- Dart
- Python
- Java
- C, C++

Frameworks
- Flutter
- Tkinter
- Java Swing

Web Technology
- HTML
- CSS
- Tailwind CSS

Technical Skills

- Firebase (Auth, Firestore, FCM)
- App Testing & Debugging
- State Management (GetX)
- CRUD Operations
- Google Maps API Integration
- GitHub & Version Control
- Database & Storage Management
- REST API Integration
- SQLite & Local Storage
- App Lifecycle Management
- CI/CD Pipeline
- Agile (Scrum)

Publications

SmartPark: A Real-Time IoT-Powered Parking Navigation, Slot Tracking & Automated Assistance
2026 IEEE 2nd International Conference on Quantum Photonics, Artificial Intelligence & Networking (QPAIN).
Developed an IoT-based smart parking system using ESP32, IR sensors, and a Flutter mobile app for real-time slot detection, booking, and automated gate control with cloud-based synchronization

Projects

Medical Help Rajbari
(Published: Play Store | January, 2026)
Tech Stack: Flutter, Dart, GetX, Shared Preferences, Firebase Firestore, Firebase FCM.

- Developed a healthcare-focused mobile application using Flutter and Firebase, providing doctor, ambulance, health product, and medical service information.
- Integrated Firebase Firestore, FCM Push Notifications, and WhatsApp messaging to support real-time data management and user communication.
- Published the application on the Google Play Store and managed production deployment and release updates.

MusicZone
(Published: Play Store | April, 2026)
Tech Stack: Flutter, Dart, GetX, Shared Preferences, Audio Service, Permission Handler.

- Developed an offline music player application using Flutter with a clean and responsive user interface.
- Implemented local music playback, playlist management, audio controls, and background music functionality.

SalesPilot — ERP-Based Sales Management App
Tech Stack: Flutter, Dart, GetX, REST API, SQLite, Flutter Map, Geolocator.

- Developed an ERP-based sales management application with order management, customer management, sales tracking, and daily target monitoring.
- Implemented REST API integration and SQLite for data management, local storage, and offline data handling

MeetDoc
Smart Doctor Appointment & Telemedicine App.
Tech Stack: Flutter, GetX, Firebase Firestore, Firebase Storage, Firebase FCM, ZegoCloud, Gemini API.

- Implemented doctor search, appointment booking, and audio/video calling using ZegoCloud.
- Used Firebase for backend, authentication, and push notifications.
- Integrated AI chatbot with Gemini API and enabled payments via SSLCommerz, along with digital prescriptions.

Certificates

App Development with Flutter – OSTAD (7 months)
Learned Dart programming, responsive UI design, Firebase, and REST API integration. Built projects including an ***E-Commerce App, Task Manager App, CRUD App , Google Maps Integration.***
