Career Objectives

Motivated Computer Science graduate seeking a position to apply and enhance skills in software and application development. Experienced in building applications using databases, APIs, and modern tools, with a strong interest in developing efficient and scalable solutions.

Experience

Company name: Omega Soft BD

Position: Mobile app development in Flutter Intern. (Remote)

Duration: 6 months

Academic Qualifications

B.Sc. : **Computer Science and Engineering**
Daffodil International University
Result: CGPA-3.32 (Out of 4)
Passing Year: 2026

H.S.C : **Higher Secondary Certificate**
Group: Science
Rajbari Govt. College
Passing Year: 2020
Result: GPA-4.58 (Out of 5)
Board: Dhaka

S.S.C : **Secondary School Certificate**
Group: Science
Rajbari Govt High School
Passing Year: 2018
Result: GPA- 4.17 (Out of 5)
Board: Dhaka

Training and Certification

App Development with Flutter

- Mobile Application Development (6-Month Online Course, OSTAD).
- Learned Dart programming, responsive UI design, Firebase, and REST API integration.
- Learn Google Maps integration and functionality.
- Built projects including an E-Commerce App, Task Manager App, and CRUD App.
- A good team work & able to work with multiple people.

Skills

Programming & Frameworks

- Languages: Dart, C, C++, Python, Java
- Frameworks: Flutter, Tkinter, JavaSwing

Development & Database

- Strong Knowledge in Mobile App Development with flutter.
- Web Technologies: HTML/CSS, Tailwind-CSS
- Databases & others: Firebase, Supabase, MySQL, SQLite, API integration, Google Map integration.

Publications

SmartPark: A Real-Time IoT-Powered Parking Navigation, Slot Tracking & Automated Assistance, 2026 *IEEE 2nd International Conference on Quantum Photonics, Artificial Intelligence & Networking (QPAIN)*.

Developed an IoT-based smart parking system using ESP32, IR sensors, and a Flutter mobile app for real-time slot detection, booking, and automated gate control with cloud-based synchronization

Project: Google Play Store publish mobile app

Medical Help Rajbari (Published: Play Store | January, 2026)

It's provided emergency calling, doctor appointment support, nursing services, physiotherapy services, ambulance services and medical product information with one-tap call and WhatsApp support.

- Available on play store.
- Provides 24/7 emergency calling and quick medical assistance
- Supports doctor appointment booking and consultation services
- Offers nursing, physiotherapy, and ambulance services
- Enables medical product information with one-tap call & WhatsApp support

Projects: Mobile Application Development

1. MeetDoc - Smart Doctor Appointment & Telemedicine App

- Implemented doctor search, appointment booking, and video calling.
- Used Firebase for backend services including authentication, real-time database, and data storage.
- Integrated digital prescriptions, patient records, and doctor dashboards for a complete telemedicine experience.

2. SocialLive – Social Media App (Team of 4)

- Collaborated using Jira to manage tasks and maintain an Agile workflow, ensuring efficient team coordination and timely delivery.
- Built an Instagram-style app using Flutter with features like posts, likes, comments, and media sharing.
- Used Supabase for authentication, real-time database, and backend services.

3. Weatherly – Flutter Weather App

- Using Open Weather API displayed real-time weather data: temperature, humidity, wind speed, and forecast based on user location

Achievements

- Published mobile app on Google Play Store.
- Published a research paper at *IEEE QPAIN 2026*.
- Developed telemedicine application for final year project.
- Strong knowledge in Mobile App Development with Flutter.
- Strong knowledge with Flutter.
