Professional Summary

Software Engineer with hands-on experience building scalable mobile applications using Flutter, Firebase, Supabase, and REST APIs. Successfully delivered multiple Android and iOS applications, including a published app on the Google Play Store. Skilled in clean architecture, responsive UI/UX design, state management with GetX, and collaborating within Agile Scrum teams to develop high-quality, maintainable solutions.

Experience

[Omegasoft BD](#) , Flutter Developer (Intern)

Apr 2025 – Aug 2025 | Agargaon, Dhaka, Bangladesh

Skills

Languages

Dart, Python, Java, C/C++

Frameworks & Backend

Flutter, Firebase, Supabase, REST APIs

State Management

GetX

Tools & Integration

Git, Postman, Google Maps API, Push Notifications (FCM), TensorFlow.

Education

B.Sc in Computer Science and Engineering,

Daffodil International University

Jan 2022 – Dec 2025 | Dhaka

CGPA - 3.31 out of 4 || Graduation Year: 2025

Publications

SmartPark: A Real-Time IoT-Powered Parking Navigation, Slot Tracking & Automated

Assistance, 2026 IEEE 2nd International Conference on Quantum Photonics, Artificial Intelligence & Networking (QPAIN).

Developed an IoT-based smart parking system using ESP32, IR sensors, and a Flutter mobile app for real-time slot detection, booking, and automated gate control with cloud-based synchronization.

Projects

[Medical Help Rajbari](#) ,

(Published: Play Store | January, 2026)

- Developed a healthcare mobile app with emergency calling, appointments, and support services.
- Integrated Firebase for authentication and backend management.
- Implemented one-tap call and WhatsApp support for quick user access.

[MusicZone](#) , (Published: Play Store | April, 2026)

- Implemented local audio playback functionality.
- Integrated background playback and media controls.
- Designed a clean and user-friendly interface.
- Successfully published the application on the Google Play Store.

[SocialLive](#) , Social Media App (Team of 4)

- Collaborated using Jira to manage tasks and maintain an Agile workflow.
- Features like posts, likes, comments, and media sharing.
- Used Supabase for authentication, real-time database, and backend services.

[MeetDoc](#) ,

Smart Doctor Appointment & Telemedicine App.

- Implemented doctor search, appointment booking, and audio/video calling using GigaCloud.
- Used Firebase for backend, authentication, and push notifications.
- Integrated AI chatbot with Gemini API and enabled payments via SSLCommerz, along with digital prescriptions.

Certificates

[App Development with Flutter – OSTAD \(7 months\)](#) ,

Learned Dart programming, responsive UI design, Firebase, and REST API integration. Built projects including an E-Commerce App, Task Manager App, CRUD App, Google Maps.
